Guard Your Eyesight

Little eye defects grow to big ones if not promptly and properly attended to. We have had long experience.

Good Optician
156 S. First St.

Patronize

The Home Barber Shop

It is run under sanitary conditions which insure you against any skin affections.

A Correction

Our attention has been called to an error made in last week's Press. In speaking of The Bryant Co., we said they had purchased the plant at Los Gatos, when it should have read they purchased the stock and leased the plant and grounds, the same as at Campbell.

Christian Science Services

In Odd Fellows' Hall every Sunday morning at 11 o'clock. Subject for July 9—Sacrament. The public is cordially invited.

OVER 65 YEARS' EXPERIENCE

PATENTS

California Gets Another Shakeup

It is hardly necessary to say anything about the little earthquake shock felt last Saturday afternoon at 2:02 o'clock. Everybody felt it, and everybody knows all about it. It was the most severe felt since the big one April 18, 1906. It was of several seconds duration, and must have stirred things up from depths unknown to a surface covering a greater portion of California and the western side of Nevada. Little damage resulted, however, no lives being lost, and very few people injured, and those indirectly as in their haste to reach places of "safety" they stumbled or fell down stairs or something like that. There's not much use of rushing around when there's an earthquake; one is quite as likely to be as safe in one place as another unless they happen to be well away from all buildings, and to reach such places one is likely to run the gamut of falling bricks, etc. But—

Not long ago a big electrical wind storm was reported to have done hundreds of thousands of dollars' worth of damage in Southeastern Michigan, besides killing a number of persons and injuring many others.

For the past week all the Central and Eastern States have suffered severely with the heat and many deaths have occurred. With the heat in the summer and the cold in the winter, they catch it "comin' and goin'," the year around.

Of course, they have heat in some parts of California, and there are some people in this state who deserve the hot places. A tramp printer came into our office one time and told of a place down south where they fed the hens cracked ice to keep them from laying hard-boiled eggs. Nobody ever suffers from the heat in Santa Clara valley. Some of us Hoosiers have not yet gotten over the habit of saying "my! but it's hot!" Yet when we look at the thermometer we have only been dreaming. At this present moment (11 a. m. Friday) while the sun is blazing away outside the mercury in our sanatorium stands at 60°.

Will Study Law in the East

Don Marshallman left last Saturday for Marion, Ohio, where he anticipates a course in law. Don was one of the '11 graduates of the San Jose Normal. He took much interest in his studies and school activities, and, being a young man of splendid character and home training, he will no doubt be a credit to the law profession.

Mrs. Smith from China

Mrs. Arthur Smith addressed the Woman's Missionary Society of the Congregational Church on Thursday, June 29. Mrs. Smith has recently returned to this country from China where she has been a missionary for twenty-eight years.

From her long residence in that country Mrs. Smith was able to give intensely interesting pictures of Chinese life and character. As she expressed it, she opened little windows into their hearts that we might learn to know and understand them better.

All who had the pleasure of listening to Mrs. Smith will be very glad to hear her again.

Summer-time Now

Every week-end and holiday should be spent out-of-doors. An outing at once delightful, inexpensive and convenient is the trip by Peninsula Electric to Congress Springs, the natural pleasure park. This charming resort is private property, but visitors are freely welcome to enjoy its beauties and the healthful waters of the mineral spring. An ideal place for picnics; also "The Grill" now open. Round-trip tickets sold only at Peninsula offices. Time-tables and all information furnished on application at Southern Pacific Ticket Office, Campbell.

LOST

An open face, silver Elgin watch, plain case, fob. Lost on Campbell Ave. between bank corner and bridge. Finder leave at Press Office and receive reward.

Your Teeth Need Care

The gateway to your stomach is largely responsible for your health. Bad teeth cause bad breath and are repulsive in otherwise attractive features of your person. Crooked teeth are unsightly, and can be straightened without pain by our scientific methods. It costs you nothing to have us examine your teeth. And we give a written guarantee for ten years on all work.

Gold Fillings \$1.00
Bridge Work, \$5 Gold Crowns (22k fine) \$3
Pivot Teeth, \$3 Silver Fillings 50c
Artificial Teeth (Full Set) \$5

We do not employ students or beginners

Local and Personal

Maurice Weeks spent the Fourth at Santa Cruz.

Rubber bath tubs for sale; enquire at Press office.

Dr. Will Beattie was at Sacramento Saturday till Monday.

D. S. Thompson went to Los Angeles last Friday for a ten day's visit.

Mr. and Mrs. Abner Purmont and his father spent the Fourth at Merced.

Ladies' hair work, working up combings. Mrs. A. W. Adams, Dillon Ave.

Harlow Plimpton, cashier of the bank at Vacaville, was in town the fore part of the week.

Mr. Vogt: "What is the difference between a barber in Campbell and one in Cork?"

Charley: "One mixes lather and the other lathers Micks."

The Misses Phebe and Amy Farley left last Monday for a two weeks' visit at Seabright.

Mr. and Mrs. R. K. Thomas are spending a few weeks at Bartlett Springs, Lake county.

Mr. William Gilbert and daughter, Miss Abbie, went to Pacific Grove Saturday for the Fourth.

The W. C. T. U. will hold its regular meeting in the New Coffee Club on Wednesday, July 12th at 2:30.

A. H. Baker has purchased a cottage in Sunnyside from M. J. Arnott and will soon move his family there.

Peace and quietude reigned in our little town on the Fourth. Many went to the Liberty Rally at Los Gatos.

For Rent—a 4-room furnished cottage at Pacific Grove. Enquire at Press office.

Mrs. B. K. Denbigh and family of Berkeley are spending their vacation at Sunny Oaks in Mrs. Sadler's cottage.

Mr. L. B. Sadler, accompanied by her granddaughter Miss Marion Phillips, returned yesterday after a week at Berkeley.

The Golden West Cleaning and Dyeing Co. have appointed Putnams as their agents in Campbell. We guarantee perfect satisfaction.

Since Mr. Vogt fixed up his shop the business has increased so that he is obliged to employ another man, Mr. Johnson of San Francisco.

A. J. Vogt spent Tuesday and Wednesday at San Francisco with his wife and boy, who have been there since last week and will return Sunday.

Miss Elmarie Hurlbert returned to her home at Pacific Grove last Monday morning after a two weeks' visit with her aunt, Mrs. Alta Blaine.

L. J. Cox went to Santa Cruz yesterday, where his wife has been since last week. They are stopping out at Twin Lakes and will remain there all summer.

Mr. Crisp, the father of Walter Crisp, died this morning at the County Hospital after an illness of a year as the result of a paralytic stroke. The blacksmith shop will be closed until Monday.

Bert K. Kerr, the Optometrist, at 36 S. Second St., San Jose, will examine your eyes carefully; if glasses are needed, fit them correctly, if not, tell you so cheerfully. See him about your eyes.

Mrs. D. R. Oliver with her daughter and son David, Jr., left last Saturday for San Luis Obispo county for a six weeks' visit with her daughter Mrs. Lela Peppard.

Chas. Gilman returned home last Monday after seven weeks treatment at the Garden City sanatorium, East San Jose. He has been very much benefited by the treatments there.

D. R. Oliver visited friends at San Francisco over Sunday. At the time of the earthquake he was taking dinner out near the Presidio. He reports that there was considerable excitement around there for a little while.

The Rev. John F. Wilson and son Carroll left last Monday for Pacific Grove where the rest of the family are enjoying a vacation. They were accompanied by Mrs. Anna Hayes and daughter Matilda, who will remain for two weeks.

A score or more of neighbors met at the home of Rev. and Mrs. G. E. Atkinson last Tuesday evening and enjoyed a Fourth of July picnic under the trees. They brought with them a liberal supply of sandwiches, salads, ice cream, fireworks, etc.

A half dozen Campbell Odd Fellows conducted installation of officers at Cupertino last Monday night. B. O. Curry took them over in his machine. They were B. O. Curry, H. Griffin, J. G. Burns, F. E. Duncan, E. C. Merrill and Fred Baugartner.

The following nine girls are spending a two weeks' vacation at Capitola: Misses Mary and Mildred Harvey, Ruth Hayes, Florence Brown, Muriel Palmer, Gladys Bean, Grace Bucknall, Byrona Bennett and Genevieve Currier. They left here last Saturday, chaperoned by Mrs. J. E. Palmer and Mrs. Bennett.

Mr. and Mrs. Harmon Bibb returned to their home at Los Angeles last Monday.

Mr. and Mrs. J. G. Burns entertained a few friends at their home last Saturday evening for Mr. and Mrs. Harmon Bibb. Ice cream and cake were served.

It is reported that the lot on Harrison avenue just north of Warren Shelly's home changed hands yesterday and that a modern cottage will be erected soon.

Work is being done toward raising money for repairing the break in the levy of the Los Gatos creek. John F. Duncan has the subscription list in town and D. R. Oliver in the country.

Mrs. Vaughn Lloyd and the children have moved into the Henry Campbell cottage on South Second street for the summer. Mrs. Lloyd is at Maricopa looking for a new location for his business, owing to the "dead" condition of Sunnyvale.

Death of John S. Tullis

Mrs. T. L. Sharp received word this week of the death of her brother, Mr. John S. Tullis, of Leon, Iowa, who passed away about the fourth. No particulars are yet known. Mr. Tullis was well known here, as he spent several winters in Campbell. He was the father of Mrs. F. E. Claver.

Congregational Church

The usual Sunday morning service with a talk to the boys and girls on "Barnacles." Sunday School at the close of morning service.

C. E. 6:30 P. M. "Lessons from the Lives of Great Men, David,"—George Richter, Leader.

The evening service will be in charge of the Woman's Missionary Society. The topic is "The California Indians." Newspapers published by Indians, baskets and curios will be on exhibition.

A silver offering for the work will be taken.

G. E. ATKINSON, Pastor.

Cannery Will Begin Monday

The J. C. Ainsley Packing Co. will begin operations in the cannery next Monday. The fruit is unusually clean this year, more so than it has been for several years, and the work will be pleasant.

The Bryant Co.

GOOD PLACE TO TRADE

The Boy and the Bank

One Dollar Will Start an Account

The first twenty-one years of one's life are spent in preparation for the future, and the habits and thoughts that are infused into a person during those twenty-one years will have the greatest influence on the following years of his life.

The boy should be taught to save and put his money in the bank. It is not discouraging to the boy to try to start a bank account when at our bank a dollar will start an account. A dollar is something to the boy, more than it is to the grown ups, and it may seem a little bit hard for him to save. But urge him to try it, and encourage him by giving him odd jobs to do, or giving him a little money now and then. Test the boy. See if he will not learn to save after urging. Point out to him the advantages of having money in the bank.

Get one of our Pocket Banks for the Small Change and Start the Account now at the Beginning of the Half Year, and Commencement of the Fruit Season.

HEALDS

SUMMARY OF PAST WEEK'S COAST NEWS

Interesting Events Among Our Neighbors in the Far West Reviewed.

What Has Transpired on the Border of the Broad Pacific From Alaska to Mexico.

Oakland.—Four days after his disappearance the body of nine-year-old Armando Ravendini, son of Manuel Ravendini, a laborer, was found floating in the estuary near the foot of Oak street.

San Francisco.—Building permits in excess of \$12,500,000 have been issued during the first half of 1911, and all indications point to a continuation of the activity in building operations during the balance of the year.

Los Angeles.—Accused of having attempted to dynamite a Moneta-avenue street car three boys, B. B. Schwartz, J. G. Markham and Charles Abrahamson are held in the Detention Home pending a hearing in the Juvenile Court.

San Francisco.—Chicago was chosen for the 1914 meeting of the International Sunday School Convention. The choice was not made without a struggle by several other cities for recognition, among them being New Orleans, Indianapolis and Cincinnati.

Fresno.—When the two little children of Mrs. Bird Sellers returned to their home on a ranch near Carruthers, 35 miles from this city, they were horrified to find the body of their mother lying in a pool of blood. A gun lay by the corpse, and it is believed that the woman committed suicide.

Santa Cruz.—A monarch redwood tree in the heart of the Santa Cruz grove was dedicated to the cause of Christianity by the officers of the International Sunday School Association. It is a notable fact that the tree thus honored stands beside and towers above one that years ago was dedicated to Robert Ingersoll.

Los Angeles.—Dr. W. R. Price, psychologist and stock promoter of Long Beach, accused of having obtained money under false pretenses from Dr. Mary J. Helm, was granted a third trial by Judge Willis of the Superior Court. The first time Dr. Price was tried the jury disagreed. The second time he was found guilty.

Los Angeles.—F. S. Kurtis, J. C. Mullen and their party of five treasure seekers who chartered the steamer Eureka some weeks ago to go on a search for a fortune which they believed to have been cached by the late John Alexander Dowie of Zion City, Ill., on the Central American coast, arrived in the port of San Pedro "disappointed and disgusted."

Niagara Falls, N. Y.—What he declared to be the most exciting trip of his life was made by Lincoln Beachey, the California aviator, who after circling 2000 feet above Niagara Fall, flew between the arches of the upper steel bridge, then down the gorge almost to the whirlpool, and up again until he cleared the banks of the river and finally landed on the Canadian side.

Visalia.—The Good Government League, a city-wide organization of the "drys," is preparing a whirlwind campaign for the third "wet" and "dry" election on July 17th. As a factor therein, ministers of the city have arranged for addresses by prominent leaders of the Anti-Saloon League on the three Sunday evenings preceding the election in the Courthouse park.

Los Angeles.—Eleven houses in San Pedro toppled into the harbor, and another building, a large apartment house, is momentarily in danger of doing the same thing. Through the operations of the Government dredger in sucking away the silt from the bank foundations under the houses became weakened. Most of them were small affairs occupied by fishermen and their families.

Oroville.—An affair of peculiar interest to Californians will be held this week in the Modoc lava beds, the scene of the famous Modoc Indian war of the early seventies. The survivors of the war are to hold their first reunion, and together they will again inspect the spot around which a most interesting event in California's history centers. The Klamath veterans will bring with them an aged Modoc Indian who fought with the hostiles during the war.

14-CARET DIAMOND FOUND IN PIKE COUNTY ARKANSAS

Largest Ever Found in This Country
And Said to be Worth \$9,000.

Little Rock, Ark.—A 14-karat blue-white diamond was found in the Mauney diamond fields in Pike county.

The stone was washed from a ton of dirt just across the line from the big Ozark Diamond Mine Company's property. John Key, one of Mauney's laborers, was the first to notice it and the yell he let out brought all hands on the run, Mauney among them.

Mr. Mauney took possession of it and, accompanied by two guards, carried it to Kimberly, where his office is located.

The stone is the largest and is said to be the finest ever found on this continent. It will be valued by experts in New York. Here it is said to be worth \$8500 and \$9000. Upon examination here it was said to be without a flaw. Its general shape is that of a wedge; it is half an inch wide at the top and tapers down to a quarter of an inch.

BIG FEATURES OF NIAGARA CARNIVAL IS DAREDEVILTRY

Three Narrow Escapes of Life in Acts
Hazardous in the Extreme.

Niagara Falls, N. Y.—After spinning around for more than three hours in the great whirlpool in the Niagara gorge, Bobby Leach, who has ridden the rapids several times in a barrel, was rescued more dead than alive.

Lincoln Beachey, in attempting to fly across the gorge, almost went into it head foremost.

Oscar Wagner, billed as the great Houdin, lost his nerve when 40 feet out into the gorge on a wire and had to be lowered into the shallow water 180 feet below.

These were the big items of the carnival at the Niagara Falls one day last week.

State Agriculture College Enlarged.

Berkeley.—Following plans which have been under way here for some time, resulting from demands from agriculturalists in all parts of the State, the first step toward the enlargement of the department of agriculture at the State University, including the Agricultural Experiment Station, has been officially taken with the appointment of nearly a score of new instructors and teachers to conduct scientific experiments, with a view to building up modern farming methods in the State.

Governor Asks Concerning Jews.

Vladivostok.—Governor General Gonetetti has instructed the governors of the maritime provinces to submit to him not later than September 14th full particulars regarding the Jews living in their jurisdiction, including those taking a right of residence. Those subject to expulsion will be given four weeks within which to close their affairs.

To San Quentin for Robbing Girl.

San Francisco.—Walter Baker and Albert Wilson were sentenced to San Quentin for respective terms of seven years and four years by Judge Lawlor for the robbery of \$400 from Miss Windeler as she was returning from a trip to a local bank to her father's cooage on Berry street with the money for the weekly payroll.

Battleship Embezzler Arrested.

Buffalo, N. Y.—Edward Valentine Lee, who stole \$46,000 from the paymaster's safe on the battleship Georgia at Havana on February 11th, has been arrested in this city. Of the stolen money \$25,000 was recovered. A young girl in Toronto to whom he confessed his embezzlement, was responsible for his arrest.

Fire Loss in Nevada.

Reno, Nev.—Fire of unknown origin starting in the rear of a saloon at Hawthorne, Mineral county, Nevada, caused a loss estimated at \$25,000. Five of the leading business houses of the place were totally destroyed and many residences damaged.

Steel Plant Resumes Operations.

Youngstown, O.—The rail mill of the Ohio plant of the Carnegie Steel Company has resumed operations after being idle for a year and a half. It is running on open hearth rails, and it is said there are a large amount of orders ahead.

Sweltering Heat in East.

Hartford, Conn.—The House representatives have adjourned, following their meeting in the city. During the session the House passed a bill to amend the act relating to the appointment of judges of the Supreme Court.

Counties Favor All-California Building at P. P. I. E.

Sacramento.—Representatives of 19 northern California counties, in session here to discuss county participation in the Panama-Pacific Exposition, were unanimously of the opinion that all county exhibits should be placed in one building, to be known as the All-California Building.

Steps were taken to have expressions of opinion secured from every county of the State on the plan. If this idea is not accepted, it is probable that the northern California counties will have a northern California building.

The meeting here was called by the Sacramento Chamber of Commerce. Six other counties were represented by delegates and twelve by letter.

Resolutions were adopted concerning the unified exhibit as follows:

Resolved, That it is the sense of this conference of the representatives of the various counties of the Sacramento valley that the management of the Panama-Pacific International Exposition be urged to require all exhibits of California products and resources to be made under one roof.

Resolved, That each county of the

State be given the opportunity of making its own separate and distinct exhibit of products and resources.

Resolved, That the secretary of the conference forward these resolutions to the management of the Exposition, with the request that it promulgate them to the various organizations throughout the State, with a view to ascertaining the consensus of opinion with respect to the unified exhibit.

The following were present: John A. Livingston, Auburn Chamber of Commerce; Robert Jones, secretary Panama-Pacific Exposition Committee of Placer County; Marshal De Motte, Corning Chamber of Commerce; C. H. Beilby and J. L. Clock, Wheatland Chamber of Commerce; F. Roberts, Marysville Chamber of Commerce; Calvin B. Brown, Panama-Pacific International Exposition; Messrs. Donnelly, Callahan and McKillup of the Board of Supervisors of Sacramento County; A. J. Filcher, secretary Sacramento Valley Development Association, and D. W. Carmichael, S. I. Hopkins, John T. Stoll, D. D. Sullivan, J. R. Larne and S. Glenn Andrus of the Chamber of Commerce of Sacramento.

Many Associations in Illegal Combine to Regulate Prices

New York.—Nine indictments charging restraint of trade in violation of the Sherman anti-trust law have been returned by a Federal Grand Jury here against as many associations and a long list of individuals, comprising the so-called wire trust affiliated with the steel industry.

Among the concerns in the combine are the following associations: The Horse Shoe Manufacturers' Association, William P. Palmer and others; Lead Encased Rubber Cable Association, William P. Palmer and others; Wire Rope Manufacturers' Association, Edwin E. Jackson Jr. and others; Fine Magnet Wire Association, Ferdinand W. Roebeling and others; Underground Power Cable Association, Phillip H. W. Smith and others; Telephone Cable Association, Frank N. Phillips and others; Rubber Covered Wire Association, William P. Palmer and others.

It is set forth that the various associations, organized under their association names, had each elected a supervisor. An arbitrary rating was determined, it is charged, by the ratio of output for an agreed time; each member was obliged to pay \$5000 or less into a fund called the "general deposit," and in case any member failed to abide by the regulations his deposit was forfeited.

Raw materials were bought, it is alleged in one indictment, at "arbitrary and non-competitive prices to be agreed upon by said defendants, being prices lower than those for which the respective corporations would be enabled to purchase said raw materials, but for the unlawful conspiracy herein described."

Upon conviction each of the defendants is liable to not more than a year's imprisonment, or a fine of \$5000, or both.

A Crock of Ancient Butter Found by Excavators

San Francisco.—A jar containing five pounds of 63-year-old butter was unearthed by men digging a foundation at the northwest corner of Battery and Halleck streets.

This crock was found 16 feet underground, being surrounded by heavy dry sand, which excluded the air and kept the butter in fair state of preservation.

Contractor Frank M. Garden thinks that this crock of butter may have been dropped in the sand by some wrecked or burning vessel when this part of San Francisco was a part of the bay, or that it was dumped there

when that part of the town was reclaimed. The water lots were sold in 1848, so that if Garden's theory is correct the jar of butter has reposed in this spot for 63 years.

Is she who churned this stubborn cream into butter still among the living? Or has she, too, been long years underground? How could she know, that after 63 years, this work of her hands would be brought to the light in a great metropolis by workmen preparing for a 16-story building? How could she foresee that it would lie here safe and sound and undisturbed amid the riot and trappings of war and earthquake and fire?

California Tubers in Great Demand in Middle West

Stockton.—The greatly increased demand of the Southern and Middle West States for potatoes is bringing large orders to Stockton, and the growers as well as the commission men are reaping large profits. Those who have potatoes to ship are securing \$2.25 to \$2.50 a sack, and the buyers are taking every bag they can secure to fill out the cars. Large shipments are going forward on express time to Houston and other Texas points, as well as Arkansas, Kansas and Oklahoma.

Crippen's Lawyer Accused.

London.—Arthur Newton, attorney for Dr. Hawley Harvey Crippen, who was hanged for the murder of his American wife, the actress, Belle Elmore, has been found guilty of professional misconduct by a committee of the Law Society in this city.

Woman Gets Four Years in Folsom.

San Francisco.—Mrs. Inez Peterson, who represented herself to be Mrs. Henrietta Farrelly of San Leandro, a wealthy widow, and attempted to get \$10,000 on a mortgage on the Farrelly home, was sentenced to four years at San Quentin prison.

To Increase Ocean Docks.

Tacoma.—At the meeting of the municipal commission Mayor Seymour was authorized to lease from the State water front on the harbor with a view to the construction of large ocean docks for use by the time the Panama canal is completed.

Seattle Jail is Empty.

Seattle.—The city jail, which has room for 200 prisoners, is empty for the first time since the infancy of the city. A year ago there were 129 prisoners. The change is ascribed to the stamping out of crime under the present administration.

THE STATE OF CALIFORNIA SHOULD HAVE DEFICIT

New Tax Law Meets All Requirements
Railroads Pay 45 per cent.

Sacramento.—There will be no deficit in the finances of the State this year. Under the new method of taxation, the Board of Equalization figures that the new system will meet the financial requirements of the approaching fiscal year.

There is required \$12,40,670 to run the State from July 1, 1911, to July 1, 1912, and the Board has figured out the following receipts in taxes:

From all railroads, \$4,776,000; gas, light and power companies, \$1,225,000; telegraph and telephone companies, \$425,000; car companies \$89,000; express companies, \$102,000; banks 1,635,000; insurance companies, \$523,000; franchise taxes, \$1,600,000. This makes a total of corporation taxes of \$10,375,000. Added to this is an estimated \$2,000,000 from corporation license taxes and miscellaneous sources, making a total only \$30,000 short of full requirement.

BARNUM'S GIANTESS WILL WED MAN NEAR HER SIZE

Women Seven Feet Tall and Man Over
Six Feet to be Made One.

Lockport, N. Y.—Mary Ellen Powers, for years Barnum's tallest woman, was married to Maurice T. Stapleton of the town of Lockport, one of the tallest men in this vicinity. The date and hour of the ceremony were not announced, the principals desiring to avoid too much publicity.

The bride resides here and is a heavy owner of local real estate. She is seven feet in height. Stapleton is over six feet and a giant in every way. About three years ago Miss Powers and Mr. Stapleton were to be married, but the event was called off on the morning of the ceremony. No reason was given.

Severe Drouth Broken in Kansas.

Topeka, Kan.—The drouth and heat which has caused much apprehension in Kansas for three weeks has broken with showers, which were general throughout the corn belt. There was only seven-hundredths of an inch in Topeka, but the Union Pacific reports three-quarters of an inch at Hays City, and rains are reported from a dozen other places throughout Western Kansas. The hot winds and blistering heat have threatened the corn crop, but up to this time it has suffered little damage.

Mormon Colony for Nevada.

Reno.—Through the purchase by the Ellison Ranch Company 17,000 acres in northern Humboldt county, Nev., it is believed that a great colonization scheme on the part of the Mormon Church has been projected. The sale price was in the neighborhood of \$100,000 and it is common report that the Ellison Ranch Company and the Mormon Church bear close relations.

Report Findings of Steel Trust.

Washington.—After two years' investigation of the steel trust Herbert Knox Smith, commissioner of corporations, laid before President Taft an exhaustive report of his findings. The report soon will be made public at the President's direction, so the House committee investigating the steel trust may obtain the benefit of it.

Explosion Deals Death and Destruction.

Port Arthur, Texas.—An explosion on the oil barge Gumble, in the harbor here, caused the death of one man and the destruction of property valued at about \$200,000. The explosion was felt for several miles. Three barges, a tug, and three warehouses filled with oil at the Texas company's terminus were destroyed.

Run Down by Automobile.

Los Angeles.—Mrs. Mildred Scott, 23 years old, died at the receiving hospital shortly after she had been run down by an automobile driven by R. H. Gilman Jr. of South Pasadena. The accident occurred while she was crossing a street near her home.

Duty Off Corn to Mexico.

El Paso, Texas.—Mexico has extended for 30 days the order admitting corn free. Anticipating the restoration of duty July 1st, 200 cars of corn were being carried to the border here when news of the extension was received.

Claims Against Mexico.

El Paso, Texas.—Claims aggregating more than \$1,500,000 have been filed by Torreon, Mexico, residents against the Mexican Government as a result of the capture and looting of the city by insurgents May 15th.

Don't cringe—don't flinch, Should fortune pinch And all seem lost; With might and main, TRY, TRY again At any cost.

MUNYON.

I AM taking the above text for the reason that I want to instill into the people self-reliance, self-mobility, self-sovereignty. I want every person to feel that they are above deception, hatred, selfishness, jealousy, envy or revenge.

I want the person who is pinched by poverty, who has suffered great reverses, who is weighed down with some great sorrow to become acquainted with the teaching of Hope. I want them to take Hope as a companion, as a light, as a medicine, for Hope is an ambassador from God. It is a teacher that shows us the beautiful. It fills our souls with songs and our tongues with praise.

To be hopeful one must be well, and to be well one must be hopeful.

That the lower bowel is responsible for most bodily ills is now being recognized by the leading physicians throughout the world. There is no further excuse for being bilious, for having headaches, for suffering with dyspepsia or indigestion, for putting up with a sluggish or lazy liver, for poisoning the blood as a result of constipation, for Munyon's Paw Paw Laxative Pills are positively correcting all these ailments. They assist in digesting everything that is put into the stomach. They stimulate the liver into activity. They start the secretions of the stomach, which carry off all the bile and poisonous matters through the bowels. They strengthen the lower bowel, so that it empties itself naturally, without the aid of cathartics or foreign substances.

Munyon's Paw Paw Pills for sale at all druggists. Price, 25 cents. Munyon's.

His Experience.

"Your city, sir, seems to be a very quiet, law-abiding place for the Far West."

"Yes, it is, but what will you say when I tell you the very first day I arrived in this town I was held up?"

"You were! As the victim of foot-pads or road agents?"

Neither, by the doctor, as the finest ten-pounder in the place."—Baltimore American.

Boston's shopping district subway, which cost \$10,000,000, is the most expensive mile of underground railroad in the world.

Allow two level teaspoonsful of baking powder to each cup of flour when no eggs are used.

Mills College

NEAR OAKLAND, CALIFORNIA
With the beginning of this year Mills College does only college work. There are no longer any Seminary courses.
The only Woman's College on the Pacific Coast. Chartered 1885. Ideal climate. Entrance and graduation requirements equivalent to those of Stanford and University of California. Well equipped laboratories. Grounds cover one hundred and fifty acres. Special care for health, outdoor life. Pres. Lucia Clay Carson, M. A., LL. D.
For catalogue address Secretary, Mills College P. O., Calif.

INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Oreston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women."

—Mrs. W. M. SEALS 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from these distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

THE LARGEST AND OLDEST LIVING THINGS IN THE WORLD

Famous Redwood Trees Thirty Feet Through and 8000 Years Old.

The big trees (Sequoia gigantea) are found only in the Sierra Nevada range, at an altitude of from 3500 to 8000 feet. They are the largest and oldest living things in the world. Their only near relative is the Sequoia sempervirens, found in the Coast Range of California. The big trees of the Sierra Nevada grow to an altitude of 340 feet and have a base circumference of over 100 feet. The bark sometimes exceeds forty inches in thickness. The big trees unquestionably antedated the Christian era. The age is determined by counting the annular rings from the center, each ring indicating a year's growth. When John Muir, best known of California's scientists, carefully examined a tree burned part way through it was found to be over 3000 years of age.

It is believed that many of them greatly exceed that age, and the president of Stanford University thinks there is no reason why the oldest of them should not have been living 7000 or 8000 years. The trunk of the big tree is columnar, fluted perpendicularly, and in appearance and color varies from a very light brown to cinnamon. The elder trees usually have little foliage for the first hundred feet, save feathery sprays. The rule is not absolute, however, and some of the larger trees, especially those in exposed places, branch near the earth. The limbs reach an enormous size, one, eight feet from the ground, on the Grizzly Giant in the Mariposa grove, having a diameter of nearly seven feet. The best known groves are the Calaveras, South Park, Tuolumne, Mariposa and Fresno, ranging from thirty trees in the Tuolumne to 1300 in the Calaveras. But along the Kings, Kaweah and the Tule rivers the groves become forests and the big trees are distributed by thousands over wide areas, it being estimated that in the Giant Forest alone there are over 6000 trees with a diameter equaling or exceeding fifteen feet each. The best known of all the groves, however, is the Mariposa, reached by a delightful daylight stage ride from the Yosemite Valley, with forests all the way.

Why He Didn't Stand Up.

It was married men's night at the revival meeting.

"Let all you husbands who have troubles on your minds stand up!" shouted the emotional preacher at the height of his spasm.

Instantly every man in the church rose to his feet except one.

"Ah!" exclaimed the preacher, peering out at this lone sinner, who occupied a chair near the door and apart from the others. "You are one in a million."

"It ain't that," piped back this one, helplessly, as the rest of the congregation turned to gaze suspiciously at him, "I can't get up; I'm paralyzed."

Tit-Bits.

Hot-Day Humor.

"Do you realize that the ice water tank you have just drunk from may be swarming with microbes?" asked the fussy health faddist, just as we had finished refreshing ourselves.

"Yes, I do," we answered, defiantly. We mopped our perspiring face as we spoke and attempted to pull our wilted collar together in front, for dignity's sake.

"And aren't you afraid of those microbes in the ice water?"

"No, sir; we are jealous of them."—Cleveland Plain Dealer.

Down to the Rind.

A grocery salesman entering a store found the place in charge of the delivery boy. Upon being asked where the proprietor was, the boy replied: "I am the whole cheese here." The traveling man departed, leaving a note for the proprietor, which the boy promptly opened.

"Permit me to suggest," it read, "that you are nearly out of cheese."—Success Magazine.

Cheated.

Manager—What's the leading lady in such a tantrum about?

Press Agent—She only got nine bouquets over the footlights tonight.

Manager—Great Scott! Ain't that enough?

Press Agent—Nope, she paid for ten.—Cleveland Leader.

The Pitfalls of English.

A Chinese student in England succeeded in giving a very brief paraphrase of the phrase, "out of sight, out of mind." He wrote, "Invisible, insane."—Springfield Republican.

Elusive.

"He is what you might call an adroit man?"

"Decidedly—his sins never find him out and his debts never find him in."—Puck.

An Odd Appreciation.

"I hear the little dancer in the first act made a hit with her barefoot act."

"Yes, she got a hand on that foot."—Baltimore American.

Cure Your Dandruff

Why? Because it is annoying, untidy. And mostly, because it almost invariably leads to baldness. Cure it, and save your hair. Get more, too, at the same time. All easily done with Ayer's Hair Vigor, new improved formula. Stop this formation of dandruff!

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

The new Ayer's Hair Vigor will certainly do this work, because, first of all, it destroys the germs which are the original cause of dandruff. Having given this aid, nature completes the cure. The scalp is restored to a perfectly healthy condition.

Made by the J. C. Ayer Co., Lowell, Mass.

ENERGY CREATED BY CALIFORNIA CLIMATE.

Vice-President McCormick of the Southern Pacific Company is always encouraging and helpful, says the San Francisco Call. He gives us words of cheer concerning the inspiring quality of the California climate and the energy that it generates. He gets down to actual figures and percentages, and it is almost as if he were calculating the horse power generated by the invigorating climate of California. Here is the climatic sum in arithmetic that he offers:

Ten or twenty acres of California soil will produce as much as can be gotten from 160 acres in eastern sections. The soil is better here and climatic conditions are such as to give the Californian 55 per cent additional energy—in the east 45 per cent of one's energy is used fighting the elements, both in summer and winter.

It is the calculation of human energy reduced to an exact science as affected by climatic conditions, but without pretending to be critical about figures it is perfectly true that Mr. McCormick's summing up of conditions has a safe basis of fact, notwithstanding that the late Robert G. Ingersoll thought otherwise. Mr. Ingersoll, hastily generalizing without knowledge of the facts and conditions, used to say that the genial climate of California would in a moderately brief time create a race resembling the Mexicans, and that in two generations or so the Californians would be seen of a Sunday morning on their way to a cock-fight with a rooster under each arm. It was an amusing prophecy which the facts have already set at rest forever. Mr. McCormick is nearer to the truth. There is no doubt that the climate of California breeds energy.

EVERY WOMAN WILL BE INTERESTED. There has recently been discovered an aromatic pleasant herb cure for woman's ills, called Mother Gray's AUSTRALIAN LEAF. It is the only certain regulator. Cures female Weaknesses and Backache, Kidney, Bladder and Urinary troubles. At all Drugists or by mail 50 cents. Sample FREE. Address the Mother Gray Co., Le Roy, N. Y.

Trials of Modern Art.

Artist—There! My latest masterpiece!

Patron—Splendid! For the humorists' exhibition, I suppose!

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Latest Craze.

"Mortgaged your house and lot, have you? Automobile?"

"No; coronation."—Chicago Tribune.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take.

The mills of India turned out 656,830,279 pounds of spun yarn during the year ending March 31st.

Natural gas in large quantities has been discovered near Moncton, New Brunswick.

YOU'LL FIND IT EXCELLENT

PROBLEMS OF THE FARM AND NOT OF THE COUNTING ROOM

Makes Boys and Girls Worth More on The Farm and More Contented.

Page County, Iowa, according to an article by Herbert L. Quick, in Success Magazine has a new idea in rural schools.

They call it "correlation." in the Page County schools—the correlation of the school with life. And that is just what it is. There is no great gulf fixed between the school hours and those of out-of-school. Education dominates all. A nice girl armed with a teacher's certificate makes a whole Domestic Economy course with an oil stove costing three dollars, and a few pots and pans. It is the case of Mark Hopkins on one end of a log, and a student on the other end. Mark+student—university. School goes home with the Page County children, and the home kitchen becomes a branch of the domestic economy course, aided by the home sewing machine. School goes into the field with the boy, and the plowing becomes a lesson on soils, the husking a lecture in plant breeding, the butchering a period of stock-judging. And this drags the parent to school, too; so that Page County has become school crazy. If every county in America could become similarly insane, the railways would break down in three years under the loads of produce. For such insanity would make it possible for two boys to make homes for their two girls on the land that formerly was inadequate for only one couple; and happy, well-educated pairs, too, they will be, where formerly they were sure that farming was only for those who couldn't "do better."

WANTED-A LIVE REPRESENTATIVE

WANTED—A live representative in this town. To handle best selling irrigated lands in California. Liberal Commissions. Address, Hanscom & Kimble, 302 Mondrnoch Bldg., San Francisco, Cal.

Not Wholly Unread.

She was very literary, and he was not.

He had spent a harrowing evening discussing authors of whom he knew nothing, and their books, of which he knew less.

Presently the maiden asked, archly: "Of course you've read 'Romeo and Juliet'?"

He floundered helplessly for a moment, and then, having a brilliant thought, blurted out, happily: "I—I've read 'Romeo'!"—Philadelphia Times.

His Flag Was Up.

When the crowd assembled for their game of ball Johnnie, the pitcher, was missing. Jimmie was sent to investigate.

"Is Johnnie at home?" asked Jimmie of the sister who answered his knock.

"Course," answered the sister, "don't you see his shirt on the line?"—From Success Magazine.

Kindred Souls.

"You fondle that pug dog," complained the lover, "until I am actually jealous of him!"

"You're all alike," answered the girl. "This puppy is jealous of you."—Cleveland Plain Dealer.

Kind of Father (?)

Suitor—Surely your father would do something for us.

Doctor's Daughter—Indeed he would. He said that he would operate on you at any time free of charge.—Judge's Library.

Getting It Straight.

"Prisoner, you are accused of having stolen a gold watch."

"It's false. In the first place, I never stole it, and in the second it wasn't gold."—Pele Mele.

The Happy One.

The Debtor—Well, old man, I'm going to marry a rich widow next week.

The Creditor—Indeed! Well—ah! Congratulate me, old chap.—Toledo Blade.

Too Much.

Son—Dis is perfec', settin' here all day an' fishin'. Eh, dad?

Dad (sighing)—Oh, I dunno, we have to bait our hooks!—Exchange.

Another Blighted Ambition.

If universal peace is ushered in, how is T. R. to realize that dearest ambition of dying on the battlefield?—Pittsburg Dispatch.

West Virginia's production of coal last year was 41,897,843 short tons, a decrease from the output of the year before of about 13 per cent.

The state of New Jersey is maintaining a high standard of public schools at a cost of about 20 cents per day per pupil.

A tablespoonful of water or milk should be allowed for each egg, in making an omelet.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

TANKS TANKS
WINEDELER'S
Planing Mill and Cooperage
GEO. WINDELER, Proprietor
Water Tanks, Wine Tanks, made from carefully selected stock by careful and experienced workmen. "Tanks that are well made last a long time." It will pay you to get your prices before buying.
GEO. WINDELER
144-154 Berry Street, San Francisco, Cal.

Up-to-date.

"Mr. Cleaver, how do you account for the fact that I found a piece of rubber tire in one of the sausages I bought here last week?"

"My dear madam, that only goes to show that the motor car is replacing the horse everywhere."—New York Evening Times.

A Little Scare.

"How did that anti-trust decision affect our friend, the monopoly king?"

"The news of it arrived just in time to be of great benefit to him. He was suffering from hiccoughs and needed a little scare."—Washington Star.

Natural Thing to Do.

Sunday School Teacher—After he heard the people shouting "Saul has slain his thousands, but David has slain his tens of thousands," what did Saul do then?

Willie (whose father "also ran")—I suppose he got right up and bellered for a recount.—Puck.

In Earnest Now.

Penelope—Does Billy seem to have serious intentions?

Mehitabel—Indeed he does! He's trying to back out of the engagement. He says now he was only in for fun.—Chicago Tribune.
